DIFFICULTY

Ingredients

- ☐ 20 fresh zucchini blossoms, gently cleaned
- ☐ 1 cup whole milk ricotta cheese
- ☐ 1/4 cup grated Parmesan cheese
- ☐ 2 tablespoons fresh basil, finely chopped
- ☐ 1 tablespoon fresh parsley, chopped
- ☐ 1 small garlic clove, minced
- ☐ Salt and freshly ground black pepper to taste

□ 2 tablespoons olive oil for sautéing

Instructions

- 1** Start by gently cleaning the zucchini blossoms to remove any dirt or tiny bugs. Use a damp cloth or paper towel to wipe the petals carefully, avoiding tearing. Then, remove the stamens from inside each blossom by gently pulling them out. This step is crucial because it ensures the filling will sit nicely inside without bitterness or bulk. Handle the blossoms delicately as they are fragile, and set them aside on a clean plate. ⌚ 10
- 2** In a mixing bowl, combine the ricotta cheese, grated Parmesan, chopped basil, parsley, and minced garlic. Season with salt and freshly ground black pepper to taste. Mix gently until the ingredients are fully incorporated but the mixture remains light and creamy. Avoid overmixing, which can make the filling dense. This fresh herb blend gives the filling a bright flavor that complements the delicate blossoms perfectly. ⌚ 5
- 3** Using a small spoon or piping bag, carefully stuff each zucchini blossom with about a tablespoon of the ricotta filling. Don't overfill; the petals should be able to close around the filling gently. Twist the top petals lightly to seal the filling inside. This technique helps keep the filling from spilling out during cooking while preserving the blossom's pretty shape. ⌚ 15
- 4** Heat the olive oil in a large non-stick skillet over medium heat. Once hot, add the stuffed blossoms in a single layer, being careful not to overcrowd the pan. Sauté gently for about 2-3 minutes on each side until the petals are lightly golden and slightly crisp. The goal is to warm the filling through and develop a subtle caramelization on the petals without burning or making them soggy. ⌚ 6
- 5** Remove the blossoms from the skillet and place them on a paper towel-lined plate to absorb any excess oil. Serve warm, garnished with extra fresh herbs or a drizzle of good-quality olive oil. These are best enjoyed right away for the perfect contrast of creamy filling and tender petals, but they can be gently reheated if needed. ⌚ 2

Chef Tips

⌚ Use a piping bag for easier and neater filling of the blossoms.

A piping bag allows you to control the amount and placement of the filling precisely, reducing the risk of overstuffing and tearing the delicate petals. This results in a more uniform appearance and less mess during preparation.

☒ Sauté the blossoms over medium heat to avoid burning the petals.

High heat can quickly burn the thin petals, creating a bitter taste and unappetizing look. Medium heat allows for gentle caramelization, preserving the delicate texture and enhancing the natural sweetness of the blossoms.

☒ Remove the stamens from the blossoms before filling.

The stamens can add an unwanted bitter flavor and bulk inside the blossom. Removing them creates space for the filling and ensures a more pleasant, balanced taste.

☒ Drain excess liquid from ricotta before mixing the filling.

Ricotta can sometimes contain excess moisture, which can make the filling runny and cause the blossoms to become soggy or fall apart during cooking. Draining ensures a thicker, creamier filling that holds together well.

☒ Serve the stuffed blossoms immediately after cooking.

The contrast between the warm, creamy filling and tender petals is at its best when fresh. Waiting too long can cause the petals to lose their texture and the filling to cool and firm up, diminishing the overall experience.

☒ Gently twist the petals to seal the filling inside.

This simple step prevents the filling from leaking out during cooking and helps the blossoms maintain their pretty shape, improving both presentation and eating experience.

☒ Use fresh herbs finely chopped for maximum flavor release.

Chopping herbs finely helps release their essential oils and flavors, which blend into the ricotta filling, providing a bright, fresh taste that complements the mild cheese and delicate petals.

Storage & Reheating

☒ Refrigerator

Store leftovers in an airtight container in the refrigerator for up to 2 days. The petals may soften and the filling firms up when cold. Reheat gently in a skillet over low heat with a splash of olive oil to restore warmth and texture.

❄️ Freezer

Freezing is not recommended as the delicate petals become mushy and the filling changes texture. If necessary, freeze unstuffed blossoms separately for up to 1 month, thaw gently before stuffing and cooking.

🔥 Reheating

Reheat stuffed blossoms in a non-stick skillet over low heat, turning gently until warmed through. Avoid microwaving as it can make petals soggy and filling dry. Adding a little olive oil helps maintain moisture and flavor.
