DIFFICULTY

Ingredients

- ☐ 1 pint cherry tomatoes, halved
- ☐ 8 oz fresh mozzarella balls (bocconcini), drained
- ☐ 1 cup fresh basil leaves
- ☐ 16 wooden skewers, 4 inches long
- ☐ 1/2 cup balsamic glaze

Instructions

- 1** Start by rinsing the cherry tomatoes and basil leaves under cold water and patting them dry gently with a paper towel. It's important to dry the basil well so it doesn't wilt or get soggy when skewered. Also, halving the tomatoes ensures each skewer has the perfect bite size and that the juicy interior complements the creamy mozzarella. Avoid using large tomatoes here because they'll be too bulky and harder to eat in one bite. ⌚ 5 minutes
- 2** Take a wooden skewer and thread one half of a cherry tomato, followed by a basil leaf folded in half, then a mozzarella ball, and finish with the other half of the cherry tomato. This order helps keep the basil tucked inside for flavor without falling off. Repeat until all skewers are assembled. This technique ensures each bite has all the classic Caprese flavors balanced perfectly. Don't overcrowd the skewer; keep it light and easy to handle. ⌚ 10 minutes
- 3** Arrange the skewers on a serving platter and drizzle the balsamic glaze generously over the top. The glaze adds a sweet and tangy finish that ties all the flavors together beautifully. If you want, you can also sprinkle a pinch of salt and freshly cracked black pepper for an extra flavor boost. Let the skewers sit for about 5 minutes before serving so the glaze can soak in a bit. ⌚ 5 minutes
- 4** Serve immediately or cover loosely with plastic wrap and refrigerate for up to 1 hour before guests arrive. This helps keep the mozzarella fresh and the basil vibrant. Avoid making these too far in advance because the basil can wilt and the tomatoes may release too much juice, making the skewers soggy. ⌚ Up to 1 hour rest
- 5** If you want to make your own balsamic glaze, simmer 1 cup of balsamic vinegar in a small saucepan over medium heat until it reduces by half and thickens slightly. This concentrates the flavor and sweetens it naturally. Let it cool completely before drizzling over the skewers. Store any extra glaze in the fridge for up to a week.
⌚ 15 minutes for glaze
- 6** For easier serving, provide small plates and napkins nearby. These skewers are finger foods but can get a little juicy, so it's nice to have something to catch drips. Also, offering toothpicks or small forks can help guests pick them up without squishing the ingredients. ⌚ Preparation time only
- 7** To add a little extra flavor, try tossing the mozzarella balls in a bit of olive oil and minced garlic before skewering. This infuses a subtle richness that pairs beautifully with the balsamic glaze. Just be careful not to overpower the fresh basil and tomato flavors. ⌚ 5 minutes prep
- 8** If you want to make these skewers a bit more filling, add a small piece of prosciutto or a green olive between the tomato and mozzarella. This adds a salty, savory note and makes the appetizer feel a bit heartier without losing its fresh appeal.
⌚ Additional 5 minutes

- 9** Finally, garnish the serving platter with extra basil leaves or a sprinkle of freshly cracked black pepper for a pretty presentation. A little attention to how you plate these makes a big difference when entertaining. It shows you care and makes guests feel special. ⌚ 2 minutes

Chef Tips

- ☑ Dry basil leaves thoroughly before assembling.

Excess moisture on basil can cause it to wilt quickly and make the skewers soggy. Dry leaves keep the texture fresh and prevent the flavors from becoming diluted.

- ☑ Use cherry tomato halves rather than whole tomatoes.

Halving the tomatoes ensures the skewers are easy to eat in one bite and that the juicy interior complements the mozzarella and basil without overpowering them.

- ☑ Drizzle balsamic glaze just before serving.

Adding the glaze too early can cause the ingredients to release moisture and become soggy. Drizzling right before serving keeps the skewers fresh and visually appealing.

- ☑ Let skewers rest a few minutes after glazing.

Allowing the glaze to sit helps it soak slightly into the ingredients, enhancing flavor without making the texture mushy.

- ☑ Choose high-quality fresh mozzarella for best flavor.

Fresh mozzarella has a delicate flavor and creamy texture essential to the classic Caprese taste. Lower-quality cheese can be rubbery or bland.

- ☑ Use wooden skewers about 4 inches long.

Short skewers are easier to handle and serve as finger foods. Longer skewers can be awkward and less elegant for party appetizers.

☑ Add a pinch of salt and pepper after glazing.

A little seasoning enhances the natural flavors and balances the sweetness of the balsamic glaze, making each bite more flavorful.

Storage & Reheating

☑ Refrigerator

Store leftovers in an airtight container in the fridge for up to 24 hours. The basil may wilt and tomatoes release juice, so it's best to drizzle balsamic glaze fresh before serving again. Serve cold or at room temperature.

❄ Freezer

Freezing is not recommended as fresh mozzarella and basil lose texture and flavor. Tomatoes also become mushy after freezing, so best to enjoy fresh.

☑ Reheating

No reheating needed. Serve these skewers chilled or at room temperature for best flavor and texture.
